

10th September 2018

Dear Parent/Carers

Extra-Curricular Activities – Autumn Term 2019

Please see overleaf the programme for the extra-curricular school activities.

If your child is interested in any of the clubs please complete the registration of interest form and return it to the school office by **Thursday 12th September 2019**.

If you request a place for Netball, Multi Sports, Dodgeball, Choir, Karate, Indoor Athletics, Tag Rugby, Football, Cross Country your child will automatically be allocated a place and you **will not** require confirmation for these activities. However, for all other activities a SCOPAY email/text will be sent out confirming your child's place and requesting payment if required. An additional SCOPAY email will be sent informing you when all places have been allocated. Therefore, if you **do not** receive an individual confirmation email/text your child does not have a place.

Due to high demand there will not be a notification for those not offered places.

Registration forms must be completed for all activities including those that have automatic places.

Please **do not** include any payment at this time unless it has been specifically requested.

If you have already booked after school music tuition for your child then you are already committed to the Autumn term. These lessons commence week starting 23rd September.

Oakdale Junior School continues to offer a varied extra-curricular programme and looks forward to your child participating.

Yours sincerely

K GILLINGHAM (MRS)
Community Development Officer

E S BISSELL (MRS)
Headteacher

Please ensure all details above are completed

A fun gateway into science and engineering.

STEM stands for Science, Technology, Engineering and Maths.

There are more careers associated with STEM than ever before, touching every part of our lives from smartphones to breathable sportswear fabric, online shopping and hair dye.

There is also an engineering skills shortage in the UK. Now is the perfect time to try out STEM club and see if you like what it's all about. If it turns out playing with new technology is your kind of fun, you could have a bright (and well-paid) science, digital or engineering future ahead of you!

Build skills for life including: communication skills, problem-solving skills, self-belief and confidence, teamwork skills, self-management & organisation skills.

Book Club – *Returning due to popular demand!*

Workshops in a fun and calm environment helping to develop your child's reading and listening skills. There will be an introduction to different reading genres, opportunities to create their own stories and even a spot of baking relating to a recipe relating to a story book!

Big Bang Science is pleased to be offering lots of fresh new science activities and experiments for the Summer term. It will be an exciting opportunity for your child to explore and experience some real hands-on-science. The sessions fully complement the curriculum, but will also offer just a little bit more, making sure your child's learning experience goes above and beyond normal teaching. Perfect for all those budding young scientists!

Please make cheques payable to Alice Mott. For any further queries, please contact Alice Mott at alice@bigbang-science.com

**Champion
Skills School**

Champion Skills School (previously called Step into Sport) and Oakdale Junior School are teaming up to continue our multi-sports club on a Monday & Thursday after school until 4.30pm. The club will be open for children in all year groups.

Champion Skills School believe children should not only come away having had fun in their sessions but having learnt something as well.

Multi-sports will include a number of different sports such as:

Football - Handball - Netball - Dodgeball - Tag Rugby - Basketball and many more.

Please make cheques payable to Champion Skills School. For any further queries, please contact Patrick Brown on 07766056905.

This new club will give children the opportunity to learn how to look after our school environment and develop areas within the school grounds for wildlife in a very practical fun way.
